Float valves of nominal size ½" up to and including 2"

APPLICATION AND USE

Float valves of nominal size ½" up to and including 2" are designed for the application in drinking water installations with a maximum working pressure of 1000 kPa and a maximum water temperature of 30°C.

MARKING

The products are marked with the wordmark "KIWA".

Place of the mark:

- "KIWA" on the body.

Compulsory specifications:

- name or mark of the manufacturer: on the body or on a detachable universal float valve.

Method of marking:

- indelible;
- visible after assembly.

RECOMMENDATIONS FOR CUSTOMERS:

1. Check at the time of delivery whether:
 - 1.1 the producer has delivery in accordance with the agreement;
 - 1.2 the mark and the marking method are correct;
 - 1.3 the products show no visible defects as a result of transport etc.
2. If you should reject a product on the basis of the above, please contact:
 - 2.1 Berluto Armaturen Gesellschaft mbH at Tönisvorst and, if necessary,
 - 2.2 Kiwa N.V.
3. Consult the producer's processing guidelines for the proper storage and transport methods.
4. Check whether this certificate is still valid by consulting www.kiwa.nl
