- 26 Brushed Chrome PVD
- 28 Black Glossy, Powder coated
- 29 Black Matt, Powder coated
- 30 Polished Red gold PVD
- 31 Brushed Red gold PVD
- 33 Polished Black Chrome PVD
- 34 Brushed Black Chrome PVD
- 35 Real Gold, Galvanic
- 36 Black Matt, Wet coating
- 47 Black Glossy, Wet coating
- 51 White Glossy, Powder coated
- 53 White Matt, Powder coated
- 54 White Glossy, Wet coating
- 55 White Matt, Wet coating
- 66 Polished Steel Optic PVD
- 80 Brushed Steel Optic PVD
- 82 Brushed Nickel PVD
- 83 Polished Nickel PVD
- 99 Polished Gold Optic PVD

APPLICATION AND USE

This certificate applies to quantity-produced “appliances with a contamination risk” intended for connection to drinking water installations. These appliances must be equipped with a backflow prevention unit at the feed in conformance with NEN 1006 that is appropriate for covering the risk of backflow of contaminating substances. The backflow prevention unit shall prevent that water upstream from the protection point will be contamination as a result of backflow from the appliances with a contamination risk and/or downstream connected applications or installation.

MARKING

The products shall be marked with the sticker:

Location of the mark:

on the outside near the water inlet connection point.

Further compulsory specifications:

- suppliers mark or logo;
- type nomination.

Method of marking:

- indelible;
- visible after mounting.

Fill- and overflow system for a bath for domestic use only

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Hansgrohe AG
- and, if necessary,
- Kiwa Nederland B.V.

This certificate is only valid for the technical water supply part of the product of installation. Kiwa declares herewith that the construction of this technical water supply has been conducted in such way, contamination of the drinking water installation will be prevented. Herewith Kiwa gives no statement with respect to the function or the efficiency of the under these declaration supplied products.

Consult the supplier's processing guidelines for the proper storage and transport methods.
