#### FITNESS FOR CONTACT WITH DRINKING WATER

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation"; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in, for confidentiality reasons, the undisclosed 'appendix hygienic aspects' to this certificate.

#### MARKING

The Kiwa<sup>®</sup>-mark products are marked with the word mark "KIWA .

Place of the mark: on the body.

Compulsory specifications:

- Manufacturer name or trademark, on the body.

Method of marking:

- non-erasable;
- visible after assembly.

#### APPLICATION AND USE

Drain taps for water are intended for draining of closed drinking water installations, or parts thereof. The drain taps are suitable for use in drinking water installations with a maximum operating pressure of 1000 kPa and a maximum water temperature of 90 °C.

#### RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Valf Sanayii A.S.
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
