## Close coupled suites

---

### Application and use

Close coupled suites are designed as flushing devices to be connected to drinking water installations with a maximum water temperature of 30 °C.

### Marking

The WC pan, cistern and float operated valve of the close coupled suites are marked with the word mark "KIWA". On the WC-pan this word mark shall be followed by the number 6, indicating the flushing volume.

*Example:  
Close coupled suite marked as follows:*

*WC-pan: "KIWA-6"*

*Cistern: "KIWA"*

*Float valve: "KIWA"*

*By this marking it is given that the close coupled suite is Kiwa certified and intended for use with a full flush of 6 litres. This flushing volume is indicated by the highest waterline in the cistern.*

Place of the mark:

- on the WC-pans between the attachment holes of the lavatory seat or on the sides;
- on the float valves on the body;
- on the cisterns on the left side, right side or front or on the inside above water level.

Compulsory specifications:

name or mark of the manufacturer:

- on the WC-pans between the attachment holes of the lavatory seat or on the sides;
- on the float valves on the body;
- on the cisterns on the left side, right side or front or on the inside above water level;
- additional markings as specified in EN 997 on a removable label.

Method of marking:

- indelible;
- visible after assembly.

### RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Vitra Eczacıbasi Yapi Gereçleri San Ticaret A.S. 'Bozüyük Plant' and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
