AquaFox Dispensing System

Product specification

The following types are covered by this certificate

Model	Type	Description	Backflow prevention unit
Aquafox	Dosing system	Dosing system for glass rinsing tank <ul style="list-style-type: none">Detergent dosing systemGlass rinsing tank	Family C – type A Integrated functionality according to Family D – type C

AquaFox Dispensing System

APPLICATION AND USE

This certificate applies to quantity-produced “appliances with a contamination risk” intended for connection to drinking water installations. These appliances must be equipped with a backflow prevention unit at the feed in conformance with NEN 1006 that is appropriate for covering the risk of backflow of contaminating substances. The backflow prevention unit shall prevent that water upstream from the protection point will be contamination as a result of backflow from the appliances with a contamination risk and/or downstream connected applications or installation.

MARKING

The products shall be marked with the sticker:

Location of the mark:
on the outside near the water inlet connection point.

Further compulsory specifications:

- suppliers mark or logo;
- type nomination.

Method of marking:

- indelible;
- visible after mounting.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Aquafox
and, if necessary,
- Kiwa Nederland B.V.

This certificate is only valid for the technical water supply part of the product of installation. Kiwa declares herewith that the construction of this technical water supply has been conducted in such way, contamination of the drinking water installation will be prevented. Herewith Kiwa gives no statement with respect to the function or the efficiency of the under these declaration supplied products.

Consult the supplier's processing guidelines for the proper storage and transport methods.
