## Leak detection spray

---

### PRODUCT SPECIFICATION

KZ leak detection spray for detecting leaks in metal and plastic gas conduits, compressed air pipes, valves and fittings.

---

### APPLICATION AND USE

Foam producing solution for leak detection for gas leaks on metal- and plastic piping systems within a temperature range of 0 °C up to and including 50 °C and an operating pressure of 20 mbar up to and including 8 bar. These approval requirements are applicable on ready-made leak detection solutions.

---

### MARKING

- GASTEC QA, GASTEC QA logo or trademark.
  - Manufacturer's or supplier's name and or registered trade mark
  - Designation of leak detection solution
  - Essential instructions for use
  - Appropriate handling and safety labelling
  - Unique identification mark providing traceability and production date or "use by" date
  - An instruction that the leak detection solution shall be rinsed off by water when used on plastic or copper pipes
- 

### RECOMMENDATIONS FOR END USERS

Check at the time of delivery whether:

- the producer has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport.

Consult the producer's processing guidelines for the proper storage and transport methods.

Check whether this certificate is still valid by consulting Kiwa Nederland B.V. or the Kiwa website.

If you should reject a product on the basis of the above, please contact the supplier and, if necessary, Kiwa Nederland B.V.
