Certification process consists of initial and regular assessment of:
- **quality system**
- **product**

Cartridges to be used for sanitary tapware: mechanical mixers

TECHNICAL SPECIFICATION

The products mentioned below belong to this certificate:

Type
K25
K28, K28V
K35A, K35A HWS, K35A HWS V
K35B, K35B HWS
K40A, K40A HWS
KN40A HWS, KN40A HWS V
and similar products which are technically identical

FITNESS FOR CONTACT WITH DRINKING WATER

The listed products are approved on the basis of the requirements for hygienic aspects set in the “Regeling materialen en chemicaliën drink- en warm tapwatervoorziening” (“Materials and chemicals in the supply of drinking water and warm tap water Regulation” dated 01-07-2017; published in the Government Gazette).
These hygienic aspects are based on two main criteria. The products shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the for confidentiality reasons undisclosed ‘Appendix Hygienic Aspects’ to this certificate.

For the cartridges with the bottoms of types B and D, the assessment of hygienic aspects is still pending. Cartridges with this type bottoms, may not yet have the Kiwa Watermark logo applied.

APPLICATION AND USE

The products are intended to be used as part of sanitary tapware as meant in the Kiwa evaluation guideline BRL-K607. The cartridges are designed for use in drinking water installations with a maximum water pressure of 1000 kPa and a maximum water temperature of 90°C.

This certificate does not refer to cartridges which may be sold to consumers directly, to be used as replacement for defective parts.

MARKING

The Kiwa®-mark products are marked with the word mark “KIWA” together with the Watermark logo or the abbreviated word mark KK
Place of the mark: on the body.

Compulsory specifications:

- name or mark of manufacturer, on the body;
- indication for temperature selection, on the handle;
- the acoustic group, if classified, on the body;
- the flow rate class, on the body.

Method of marking:

- non-erasable;
- visible after assembly.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Kerox Ltd.

and, if necessary,

- Kiwa Nederland B.V.

Consult the supplier’s processing guidelines for the proper storage and transport methods.
